PPY6

Linear Fluorescent Lamps 1' to 4' tubes Small Offices and Facilities container

Smaller version of the **PPY1** 'Recycling Service Container' for smaller quantities of one, two, three and four foot straight fluorescent tube type lamps. All recycling cost are included. Simply place lamps in container and call **RecyclLights** toll free when completely full of pick-up. Maximum capacity 185 'T-8' tube type lamps. The 'Recycling Service Container' meets all Federal and

State regulations for packaging, labeling, accumulation start date, instructions and limited training as required by law. This 'Recycling Service Container' is perfect for small offices, or facilities where Universal Waste-Lamps are collected at numerous locations.
